

GEM Collective stands in full and unequivocal solidarity with the people of Palestine - we call for an immediate ceasefire, an end to Israeli State occupation, and a liberated Palestine.

“We arrive here tired of being sacrificed for dominant imaginations of law, order or liberation. Colonisation created conditions that make lives unlivable: our bodies have been rendered disposable in worlds centred around profit. This brutalises and erases us from the bodies that we live in; while enabling others to brutalise and erase us via the policies, policing and imperialism that it justifies....

We’re building a different reality”

— GEM Collective, Research Statement (2021)

“...I was born a Black woman
and now
I am become a Palestinian
against the relentless laughter of evil
there is less and less living room
and where are my loved ones?
It is time to make our way home.”

— June Jordan, *Moving Towards Home** (2007)

“If you're not careful, the newspapers will have you hating the people who are being oppressed, and loving the people who are doing the oppressing.”

— El-Hajj Malik El-Shabbazz (Malcolm X)

We are currently witnesses to what should be unthinkable - a genocide of Palestinians in full view of the world, with the vocal and active backing of many Western states. In an escalation of 75 years of apartheid and settler occupation, and an ongoing policy of collective punishment and brutalisation, Israel is now systematically displacing and killing Palestinians living in Gaza, and those in the West Bank.

As with many atrocities past and present, we see this campaign being fuelled by propaganda, a well-resourced campaign of lies and disinformation being spread by mainstream media, governments, and many with a public platform. We believe wholeheartedly that an essential part of liberation is the sharing of knowledge and information, in uncensored ways, providing clarity on the histories of current situations, and allowing us to ensure we support those who are oppressed rather than those doing the oppressing (cf El-Shabbazz, 1963-65). As such, we provide the reading lists and articles below to counter the propaganda and provide a starting point to inform those who may not be aware of the true history of Palestine. We recognise that there is much more information available about this, so we encourage people to (continue to) engage with work beyond what we’ve shared here, and to speak out against the continued occupation of Palestine.

There is no shame in not knowing, and so much to be gained from acquiring previously unheld knowledge. We acknowledge that we have not spoken on the numerous peoples around the world

suffering brutal persecution, oppression and even genocide; we are speaking to the genocide in Palestine in particular due to the visible nature of the occupation and the fact that the dominant global media forces and states across the West have so blatantly green-lighted this violence in such a way that its support for the Israeli regime is exceptional.

Just as we have shared these resources, we actively invite you to share useful resources with us in return - whether on Palestine or other issues - we are all always learning.
