A community of public scholars demanding and embodying liberation
August 2024 More of a note than a newsletter

Dear friends,

Earlier this month, we witnessed the tragic killing of three young girls, Bebe King, Elsie Dot Stancombe, and Alice Dasilva Aguiar, in an attack that left many more children injured. We also saw white supremacist race riots and individual attacks across the UK, all against a backdrop of ongoing genocides and other violent oppressions around the world. Below we share details of support circles being offered to those impacted.

We are also happy to share details of an upcoming collaborative event in solidarity with Sudan.

>>>> In the wake of the race riots and attacks of early August, **Support Circles** are being offered by Radical Therapist Network, Healing Justice London and a number of other organisations. Community Trauma Conference UK have compiled a list of these and other mental health services, organisations, and resources - you can [access the document at this link](#).
